Ouija Board WiFi by escaperoomshop.it

SETUP

1. Turn off the board (the board turns off when you plug the charger on it)
2. Place the planchette on the spot and keep it in place
3. Turn on the board (keep the planchette in place for all the time)

5. Connection:

Place your smartphone near the device and connect it to the WiFi access point

Scan the QR code or log in manually

ssid: **escaperoomshop**

pw: **12345678**

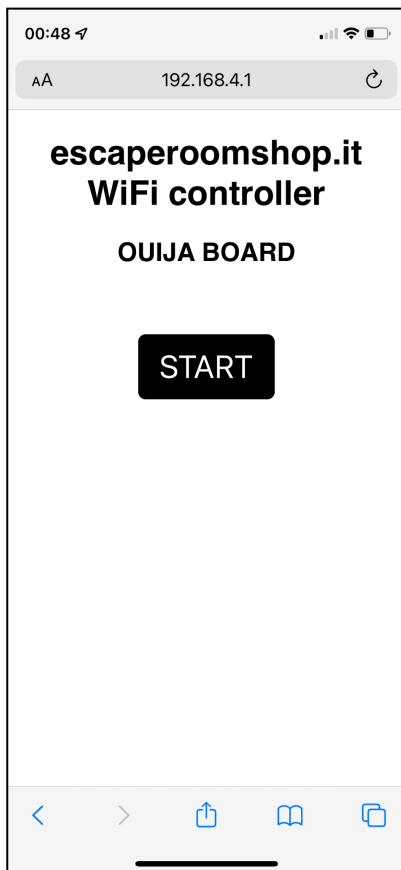

wait a few seconds for the connection to become stable

! it is advisable that there is no WiFi nearby

6. Once connected, scan the QR code or browse the following address:

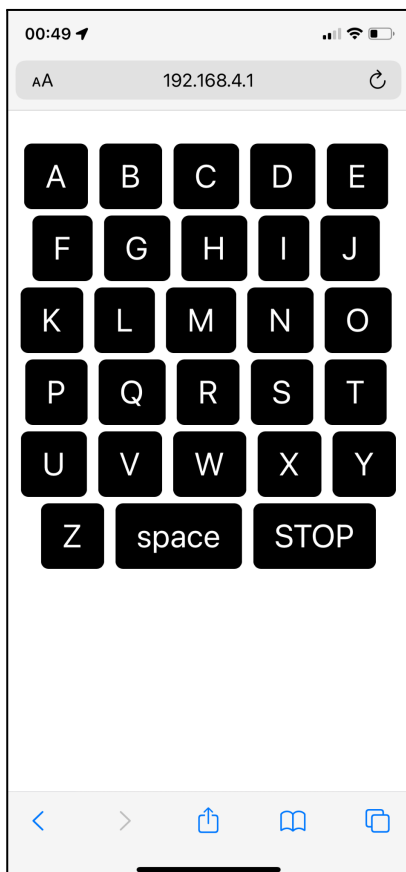

192.168.4.1

This page will open

(if the page does not open, check the connection again)

Tap on **START**

This page will open

Compose your message

For each tapping on the button the corresponding letter on the board will light up (wait and do not tap twice if the light does not come on)

At the end of the message, tap on the **STOP** button and wait for the previous screen

The message is now saved

Turn off the board to make the changes effective
